Bullione Africa

- Designing and developing the company website to ensure a seamless user experience and modern functionality.
- Testing, maintaining, and enhancing the website to optimize performance, resolve issues, and implement updates.

October 2024 - February 2025

Professional Break
Career Break

During my professional career break, I dedicated time to upskilling and expanding my expertise in key areas such as database management, specifically MongoDB, and gained hands-on experience with the Laravel framework. Alongside this, I ventured into freelancing, where I successfully built and managed a fully functional project for selling books. This hands-on experience not only enhanced my technical proficiency but also strengthened my project management and problem-solving skills, as I worked independently to deliver a complete solution from concept to execution.

June 2024 - July 2024

Intern

The Brand

- Graphics design - graphics designing using the brand's website
- UI/UX - Figma designing and prototyping
